Roman Foundations of European Private Law

KSL Nr. 453819 (5 ETCS)

Join us to explore the Roman origins of the most important private law institutions! Their traces can be found in every modern European codification, such as interpretation and error, good faith, just price, the concept and transfer of property, the principles of universal succession, etc.

All students are welcome regardless of their background in Roman Law.

The course will be held in English.
